

## VKP-36M voltage detector

### Product description:

Type:

VKP-36M

Nominal voltage range:

10-36 kV

Maximum voltage:

40.5 kV

Threshold voltage:

$3.6 \text{ kV} \leq U_k \leq 4.5 \text{ kV}$

Nominal frequency:

50 Hz

Outdoor design: For wet conditions,  
designed for indoor or outdoor use

Voltage detector.

Category L: The contact electrode  
voltage detector without.

Climate class:

N (-25 to +55Co)

VEIKI test permit number:

5472/VNL

Applicable standard:

MSZ EN 61243-1:2005

Supply voltage:

6 V (2x CR 2032)

Operating current consumption:

35 mA

Quiescent current recording:

0mA

Indications:

Light and sound

Display group: III ("voltage  
has" status indication, which is ready  
has a condition)

The insulated operating rod of the voltage  
detector:

VK-TR-C-2000
